KEYNOTE SPEAKER

Claire Culwell ABORTION SURVIVOR

Claire has been affected by all three choices women face when they have an unplanned pregnancy: abortion, adoption, and motherhood. Claire Culwell was adopted shortly after she was born by a loving family. At 21 years old, she met her birth mother for the first time. After thanking her for giving her life, her birth mother tearfully shared how Claire survived when her sibling did not... she was the survivor of a twin abortion. Claire's life was a miracle! The only explanation for Claire's survival is God's mercy and love. Now a mother herself, Claire shares her story and a true testimony that God has plans for each and every person.

This event is free to attend thanks to the generous support of our sponsors and gala underwriters. You will be given an opportunity to partner with us during the event. Underwriting opportunities can be found online (www.nlfs.org) and on the enclosed RSVP card.
