

pro-life *adj.*

prō-līf

according to New Life Family Services

Being pro-life is not just about saving babies and opposing abortion.

: It is about raising children.

: It is about helping mothers and fathers build healthy relationships and families.

: It is about providing life-affirming alternatives to abortion, including adoption services and parenting support.

: It is providing comprehensive services, with one goal in mind: **that our families would not only choose life, but have the resources and support needed to live life abundantly.**

Life decisions need support.

Many of the families we serve are facing tough circumstances, such as generational poverty, homelessness, unemployment, broken relationships, and violence. Regardless of what they are facing, we walk alongside each of them in their journey while providing holistic support.

At New Life Family Services, we believe a holistic approach to pro-life work leads to reduced abortions and thriving families. We work with one goal in mind: that families would not only choose life, but would have abundant life.

Our life-affirming services include:

- **Pregnancy testing**
- **Decision making counseling**
- **Ultrasounds**
- **Licensed adoption services**
- **STI testing and treatment**
- **Parenting education & group classes**
- **Practical resources including baby clothing & gear**
- **Post abortion healing program**
- **Case management services**

Join us as we work towards creating a culture that not only supports life, but supports it abundantly.
